Here's What We're Going To Cover...

- The #1 Most Important Aspect of Every Single Article You Post Online (Without this, you're wasting your time)
- How to craft a unique call-to-action that pulls people into your website, ready to buy.
- How to setup your "Call To Action Domain Name" and direct traffic from your articles straight to your Internet Income University affiliate link for maximum profits.

The #1 Most Important Element Of Every Article!!

- The most important element of every single article you post online is what's called the "Author Resource Box"
- This is where you get credit as the author and get to link back to your website (or affiliate link)
- This is how you get TRAFFIC!!!
- Without an effective "author resource box", you'll be running a non-profit organization.

Creating Your “CALL TO ACTION”!!!

- It's not enough to just include a link in the “author resource box”, you must also have a strong call to action.
- In other words, ENTICE your readers and give people a GOOD REASON to click on your link.

A Resource Box You Can Legally Steal!!
